Karnataka, India

PROFILE SUMMARY

AI & Data Science student with hands-on experience in Machine Learning, Python, SQL, EDA, and data visualization. Strong problem-solving and programming skills with exposure to full-stack development, IoT systems, and CNN-based image classification projects. Quick learner with good communication, teamwork, and analytical abilities, passionate about building data-driven and software solutions.

TECHNICAL SKILLS

Programming & Data: Python, Java, SQL, Pandas, NumPy, Scikit-learn, ML, Deep Learning

Tools: Git, GitHub, VS Code, Jupyter, Excel, PowerPoint, ChatGPT, Kaggle

Web: HTML, CSS, JavaScript (basic), Node.js, TypeScript

Soft Skills: Logical Reasoning, Problem Solving, Communication, Leadership

EXPERIENCE

Research Intern — Manipal Institute of Technology

Jun 2025 – Aug 2025

- Developed a DenseNet CNN model achieving **99% accuracy** for plant disease detection.
- Contributed to a research paper currently under journal submission.

Employment Readiness Programme Lead — NMAMIT

Jan 2025 – Feb 2025

- Led workshops on resume building, coding, and interview skills.

Student Intern — ATAL Incubation Centre

Nov 2023 – Mar 2024

- Worked with IoT, VR, and 3D scanning technologies for prototype development.

EDUCATION

B.Tech — Artificial Intelligence & Data Science NMAMIT (2023–2027)

CGPA: 9.14

Pre-University (PCMB) Dr. NSAM PU College, Nitte (2021–2023)

Aggregate: 93%

PROJECTS

Automated Plant Disease Classification (CNN) — DenseNet-based multi-class model with high accuracy.

AI Crowd Analysis & Early Stampede Warning System — AI-based crowd monitoring and risk detection.

Temple Management System (Full-Stack) — Node.js, TypeScript, MySQL.

Customer Churn Prediction (ML) — Built classification model using Scikit-learn.

Titanic Dataset EDA — Data cleaning, visualization, pattern analysis.

ACHIEVEMENTS

- Technical Lead — HackerEarth Club, NMAMIT
- Stanika Brahmana Scholarship (Academic Excellence)
- Stanika Cricket Trophy — Winner (4 consecutive years)
- Yakshagana Performer — Multiple public stage performances

CERTIFICATIONS

- Data Analytics: Turning Raw Data into Real Decisions — Innomatics Research Labs
- Java Bootcamp — LetsUpgrade
- GenAI 101: Mastering LLMs — LetsUpgrade
- Agentic AI Fundamentals — Salesforce Trailhead
- AI for Students — NxtWave
